Teacher Selection Committee:

I write to ask that you consider Christie Stucker for a teaching position at your school. She is currently working on an AS in Education, after which she plans to pursue a BS in Elementary Education.

Christie graduated with an AAS in Computer Information Systems. She worked on the CDA process and, in addition, she completed several of the education classes that I teach in the education program. Christie has maintained a B average while enrolled in classes at Ivy Tech Community College.

As a student, Christie deals with the challenges of taking college courses while caring for her children and husband. At times, she has traveled long distances to take a class offered at an Ivy Tech campus that is not in close proximity to her home.

Christie enjoys working with children. She currently serves as a substitute teacher in a couple of schools within the Madison area.

Christie Stucker is a veteran who has the disciplined training from military service. Her experience in raising her own young children as well as her professional course preparation equips her with the knowledge and skills necessary to assume teaching responsibilities. For these reasons, I hope you include Christie as a candidate for a teaching vacancy in your school.

Sincerely,

A handwritten signature in cursive script that reads 'Karla Henderson'.

Karla Henderson, Ph.D.
Education Program Chair
Ivy Tech Southeast
